PRODUCTO REGISTRADO - AGENCIA NACIONAL DE VIGILANCIA SANITARIA

CERTIFICACION DE CALIDAD:
ABNT NBR ISO 9001 - Sistema de Gestión de calidad - Requisito
ABNT NBR ISO 13485 - Productos para la Salud - Sistema de Gestión de Calidad - Requisitos regulatorios; Buenas PRACTICAS DE FABRICACION

CERTIFICACIONES DE PRODUCTO:
PORTARIA INMETRO - Certificado Obligatorio para equípos eléctricos sobre Vigilancia Sanitaria
ABNT NBR IEC 60601-1 - Equípo electromédico - Parte 1 - Requisítos Generales para seguridad básica y performance
ABNT NBR IEC 60601-1-2 - Norma: Compatibilidad Electromagnetica - Requisito y pruebas
ABNT NBR IEC 60601-1-4 - Norma: Sistemas programables electromédicos
ABNT NBR IEC 60601-2-46 - Requisitos partículares para seguridad básica y performance esencial de mesas MARCA
CE - CERTIFICACION EUROPEA
FDA - CERTIFICACION ESTADOS UNIDOS

OPERATING TABLE
KL-200

Our KL200, is an electromotorized surgical table with manual and individual leg movement, extremely versatile and ideal for general and specialty surgery.

Movement flexibility: greater angles that allow the surgeon to position the patient in accordance with the requirements of the procedure and technique used. The split legs give easier access to the patient during the procedure.

With a manual longitudinal movement, the table provides improved image access and free access to the arc in C.

Security and efficacy: The chassis structure with reinforced stainless steel offers high resistance and reliability. Its rectangular base gives absolute stability in maneuvers to meet the intended use, meeting the most stringent regulations of the hospital segment

The KL200 was designed to meet a demanding public seeking technological innovation , flexibility and quality with great cost-benefit in a product. The table is fully configurable and allows the inclusion of accessories to meet all surgical specialties .

OPERATING TABLE
KL-200

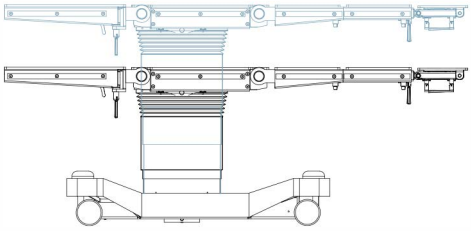
Our KL200 model is an electromotorized surgical table with manual and individual leg movement, it's extremely versatile, ideal for general and specialty surgery.

- Electro-motorized column adjustments
- Manual wheel brake
- Gas spring assisted, individual leg section movement
- Manual longitudinal shift
- Motorized movements through remote control:
    - -Tilt
    - -Trendelenburg
    - -Reverse-Trendelenburg
    - -Back section

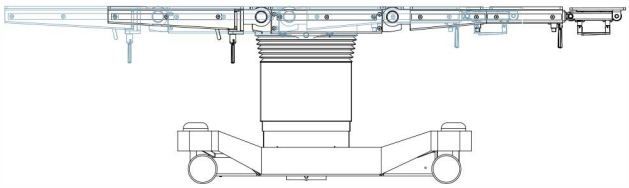
Standard Movements

Standard movements covered in all configurations presented.
We offer the best angles within desired configurations.

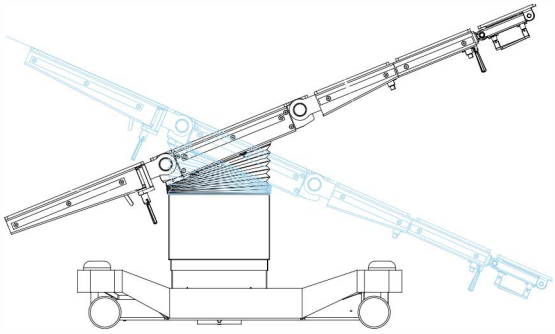
Elevation



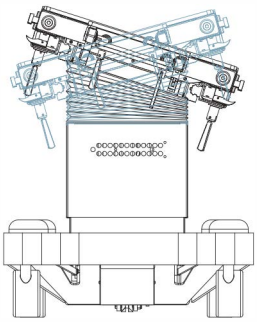
Longitudinal Shift



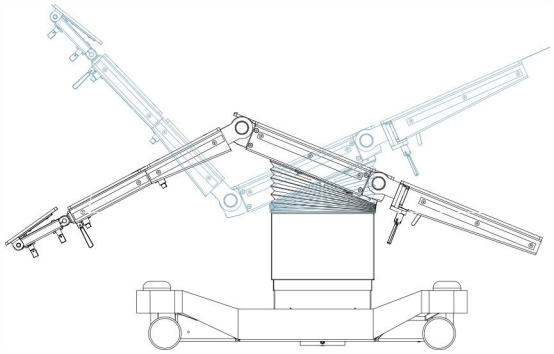
Trendelemburg and reverse



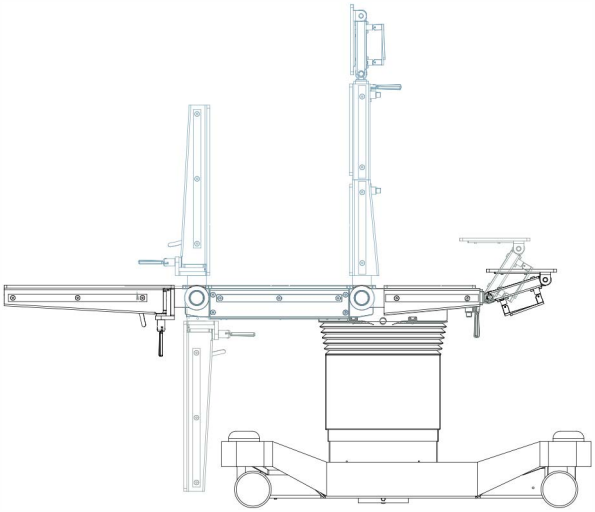
Lateral Shift



Flex
Reflex



Back, head and leg support



Note: Due to technological advances, the manufacturer reserves the right to modify technical specifications of the product without prior notice.

ACCESORIES
